Subject: Re: Wood County Press release - Town of Armenia private well testing

Thank you! I just left you a voicemail message that will be sending the 5 homeowners today via email WDNR's fact sheet on nitrates in drinking water and the Juneau Co health department's phone number if they have questions on the health effects of nitrates.

Can EPA get the Wood County data?

Linda
Acting Director, Water Division
EPA Region 5

Linda,
I wanted to alert you that the Wood County Health Department (as I mentioned, Wood County covers environmental health work for Juneau County) is issuing a press release today regarding nitrate test results in private wells in Juneau County (see attached).

We have not yet received any results from them.
Jim
